

## Notification of Water improvement, Gas and Telecoms works on Sunnyhill Road

Dear Occupier

We are writing to let you know that Thames Water, GNetworks and SGN are collaborating together to undertake works that will improve the resilience of local infrastructure, whilst also reducing future disruption.

We have identified safety-critical gas and water main upgrade works that need to be carried out in Sunnyhill Road. Telecommunications and broadband works will improve network capacity and reliability which is critical works during the current pandemic.

We are working closely with the London Borough of Lambeth and the Greater London Authority to ensure these upgrades are delivered as efficiently as possible.

Our priority is to minimise disruption to the area. This is why we will be delivering the upgrade works simultaneously, which also means one less set of works for residents and road users in the future.

### Details of the works

- **SGN** will be replacing old metal gas mains with new plastic pipes **between Harbrough Road to Valley Road** to ensure a continued safe and reliable gas supply for many years to come.
- **Thames Water** will be replacing old water pipes with new stronger ones **between Farm Ave and Valley Road**. This is to ensure that Thames Water continues to provide a reliable service now and in the future.
- **GNetworks** will be laying underground ducts and fibre optic cables in the carriageway and footway to every property in the street, **from Streatham High Road to Harbrough Road**. This means every business and residence will have access to ultra-fast full fibre connectivity which will be significantly faster and more reliable than the London average.
- By working collaboratively, we are able to reduce the overall amount of time required to do the works. We estimate that we will save 11 weeks of additional work being carried out and disruption to residents and road users.

### Phasing and timings of the works

	10-Jan	17-Jan	24-Jan	31-Jan	07-Feb	14-Feb	21-Feb	28-Feb	07-Mar	14-Mar	21-Mar	28-Mar	04-Apr	11-Apr	18-Apr	25-Apr	02-May	09-May	16-May

<b>Thames Water</b>					█	█	█	█	█	█	█	█	█	█	█	█	█	█	█	█
<b>SGN</b>																	█	█	█	

## Location of the works

We will be working collaboratively in **Sunnyhill Road**.

## Things to note

**Sunnyhill Road** will be closed to motorists from week commencing Monday 7 February 2022 to ensure everyone's safety while this work is carried out.

The footpath along Sunnyhill Road may also have work carried out, however cycle and pedestrian access to the school homes and businesses will be maintained throughout the project.

A signed diversion route is in place for motorists and bus services. Please visit TfL's website for more information on affected routes.

## COVID-19 update

We're working closely with the UK Government and public health bodies to make sure we work safely and in line with expert advice during the coronavirus outbreak. We have extra safety precautions in place to protect our colleagues and our customers from catching or spreading the virus as we carry out these safety-critical improvement works in your community.

This collaborative work will be carried out using the appropriate PPE and our staff will practice social distancing measures in line with best practice and up-to-date Government guidance.

## Contact us

We are committed to deliver an efficient, safe project and to keep our customers informed throughout. Our teams are always happy to answer questions about our work. If you have any queries or concerns then please check who the relevant company is on the site boundary and use the details at the bottom of this letter and the work reference number if applicable (TW) BB70013637.

Kind regards
