

22<sup>nd</sup> March, 2022

Dear Parents and Carers,

This term we have had a whole school focus on STEAM (Science, Technology, Engineering, Art and Mathematics) through our theme of **'What a Wonderful World'**.

Each class has been learning about a sustainable development goal, developing an understanding of what they can do to help to protect the planet.

We will be celebrating this term's work by inviting parents and carers into the school to see what the children have been learning in class.

On **Thursday, 31<sup>st</sup> March**, you will be able to join your child in class to take part in a Science lesson, after which you will have the opportunity to view our STEAM exhibition in the Main Hall.

Please see times below:

**EYFS – 9.15-10.00** (Go straight to class with your child, you do not need to visit the Main Hall first)

**Year 4 – 9.15am - 10.00am**

**Year 2 – 10.55am - 11.40am**

**Year 5 – 11.45am - 12.30pm**

**Year 1 – 12.50pm - 1.30pm**

**Year 3 – 1.35pm – 2.15pm**

**Year 6 – 2.20pm - 3pm**

Years 1-6 parent/carers, please arrive promptly and come to the Main Hall via the Main Office. Younger siblings are welcome to attend however pushchairs will need to be stored in our Science Room. You will spend approximately 30 minutes in class and will have 15 minutes to view the exhibition.

If you are unable to attend during the day, or if you would like more time to view the exhibition, the exhibition will be open after school until 5pm.

If you have any questions about the workshops, please speak to your child's class teacher.

Thank you

Nicola Gentleman

Deputy Head Teacher (Curriculum)
