18.09.19

Dear parent/carer,

On **Wednesday 16th October 2019** we are having a **Teddy Bear Hospital** clinic in school.

The aim of the clinic is to reduce children's anxiety about going to the GP or hospital and promote healthy living.

The children will be asked to bring a (poorly or injured) teddy of their own in on the day.

The "Teddy Doctors" are medical students at St Georges University. They would like to take photographs to use on the St Georges Medical School website and leaflets to promote the organisation. **We will not allow photography of any child whose parent has not given permission.** Children with permission will be identified with a sticker.

Thank you for your continued support,

Mrs Richards/Ms Vowers
