

## Let's investigate

Explore your sense of taste. Try to taste something bitter, sour, sweet and salty. What taste did you enjoy the most? What did you like the least?

## Let's go hunting

Look around your home, garden or on a walk for some shapes. What shapes can you see in your environment? Are there any new shapes you've not seen before?

## Let's create

Use your handprint to make different safari animals!

Can you make one of the animals from our story?

## Let's make

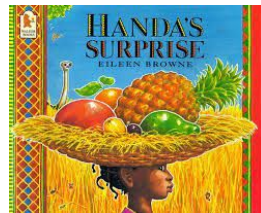

Making rainbow fruit skewers. Use as many or as little different types of fruit to make your skewers. Try and include one fruit you've not tried before.

Can you use a knife safely to help to cut your fruit?

## 'Dip and Do'

Nursery  
Spring  
2023

## Let's write

Draw a picture of your own fruit basket. What fruit do you want to put in the basket? Get a grown up to write the names of the fruit you have drawn and then try to copy the words and label your picture.

## Let's get talking

Talk to your parent about your favourite part of the story. Why did you like that part? Ask your parent what their favourite part was. You can watch it online here:

<https://www.youtube.com/watch?v=XyIVxYi0as>

## Let's get sharing

Get a grown up to video call a friend or family member. Tell them what you have been learning about. Can you show them something you have made, drawn or painted?

## Let's get technical

Explore some technology at home. Can you play a maths/ english or other educational game at home on a device. Some games can be found at [topmarks.com](http://topmarks.com) or on [cbeebies.com](http://cbeebies.com) games.
