

Let's investigate

It may be the middle of Winter but there are still plenty of insects about. Go on a bug hunt in your local area (some may even be hiding in your house) and see how many insects you can find. Use this identification guide to help you.

<https://www.woodlandtrust.org.uk/blog/2017/11/common-uk-insect-identification/>

Let's solve

After your bug hunt create a bar graph to present your results. Which insects did you find? How many of each type? What did you use to record your results while you were on the hunt?

<https://www.educateoutside.com/resource/math-science-investigation-the-bug-hunt/>

Let's create

It's likely that we'll have to eat more insects in the future to get our protein in a more sustainable way. Have a go at drawing some insects - how creepy can you make them?!

<https://www.artforkidshub.com/how-to-draw/animals/insects/>

Let's cook

Think about what food you could grow yourself: tomatoes, herbs, potatoes, onions, carrots can all be grown indoors or out, in small pots or big gardens. You can then harvest your veg (or buy it from the supermarket!) and make a tasty soup. Chop your veg (whatever you choose), fry it up for 5 mins, add water or stock and herbs for flavour.

'Dip and Do' Zero Hunger Year 3 Spring Term 2021

Let's talk

The UK is a rich country and everyone here has plenty to eat. Do you agree or disagree with this statement? What evidence do you have for your opinion? Should we only help people in this country or should we help people in other countries too?

Let's visit These are all websites where you can watch insects / wildlife at work!

[Critter Cams](#)

<https://www.bbc.co.uk/programmes/b00nxks3>

Let's write

<https://www.bbc.co.uk/newsround/50066705>

This article explains about food poverty around the world and what we could be doing about it. Write a letter to the Prime Minister explaining why it is such an important issue and what could be done to solve it.

Let's get technical

Create a Zero Hunger game using Scratch. Can you earn points or prizes to distribute food fairly across the world? Can you build innovative ways to feed more people?

<https://scratch.mit.edu/>

This term our topic is 'Zero Hunger'. This is Goal number 2 of the UN's sustainable development goals. With your child, dip into the activities on the sheet. You don't have to do them all. Your child can present their work in any way they choose.
